Abstract

A succinct abstract.

Keywords: Keyword 1, Keyword 2, Keyword 3, Keyword 4, Keyword 5

- What did you do?
 - A descriptive sentence that may begin “this paper describes...”.
- Why did you do it?
 - What motivated you to do what you did?
- What is new?
 - What part of this work is important because it is new?
- How does it compare to existing methods/studies?
 - How does this work extend or build on the SOTA?
- Who Cares?
 - Define the scope of the scientific community likely to find this work interesting.

1 Introduction

An exciting introduction.¹

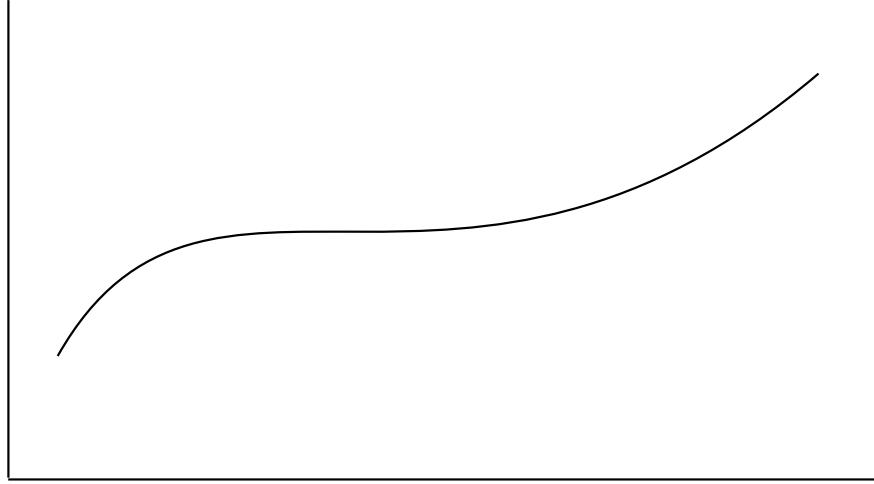

Figure 1: An informative figure.

2 Results and Discussion

Some exciting results in Fig. 1.

A sub heading

$$J = J_0 e^{-\beta d} \quad (1)$$

3 Conclusions

Some conclusions.

4 Experimental

Do not forget to use the SI units package in the experimental.

5 Acknowledgements

Some conclusions.
